## HLTHPS006 | Assist Clients with Medication

### OVERVIEW

This skill set covers:

Reminding and/or prompting a person to take their medicine, Assisting (if needed) with opening of medicine at the person's request and/or direction, Bringing packs of medicines to a person so that they can take the medicines, Reading labels aloud to the person and advising the time to the person who is going to take the medicine, Ensuring the person has a drink to take their medicines, Understanding medications and their side effects.

You do need to book in a 30-minute practical assessment with our nurse if you do not have a nurse in your employment site.
